## What can Cancer Assist help with?

- Support across five pillars of wellbeing: physical, emotional, financial, social, and professional
- Answering questions when you don't know where to turn
- Listening when you've had a tough day
- Sharing factsheets, tips and helpful links from Reframe's library of resources
- Giving tailored, practical assistance
- Sourcing local, reliable partners and service providers
- Advice on what to expect and post-treatment recovery

“ Last year, I took time off work to support my father who was having palliative care, but as a result I started to struggle and feel overwhelmed with everything.

The client navigator was so understanding, I immediately knew I was in good hands. We discussed my options and she explained everything clearly. She provided a list of government benefits I had no idea I was entitled to and sourced a local benefits adviser to help me. We also discussed ways I could talk to my employer about flexibility and other workplace adjustments.

The situation suddenly felt manageable, and I could focus my energy on supporting my father again.

# Reframe delivers support across all areas of life & wellbeing
