Subject: An important new service for you and your family

The biggest asset that we have is you – the people that make our company what it is today – so it's important for us to provide you and your loved ones with fast access to health and wellbeing support whenever it's needed.

That's why we're really pleased to announce that in the next few weeks you'll be able to access Help@hand.

Help@hand is a digital health and wellbeing service from Unum – a leading employee benefits provider. It's completely confidential and will provide you and your family* with access to five health and wellbeing services via one easy-to-use app including:

- **Remote GPs:** Video consultations that last up to 20 minutes. Aiming to get you seen by UK-based doctors within two hours, all day, every day.
- **Mental health support:** Access to therapists when it's needed most and typically delivered via video consultation.
- **Physiotherapy:** A network of physiotherapists with treatment plans usually delivered via video consultation.
- **Medical second opinions:** Access to UK-based private consultants – following a final diagnosis.
- **Life, money and wellbeing support:** Advice on a range of life and work issues, including financial, legal and family concerns, plus a confidential 24/7 helpline.

We'll be sending more details in the coming weeks on how to get started so please watch out for further emails from us on this.

If you have any questions in the meantime, then please read through the [Help@hand FAQs](#) or contact **[insert name/department and contact information]**.

* You and your partner (if applicable) will be able to access all Help@hand services. Children are eligible to access the remote GP and medical second opinion services up until their 18th birthday or 24th if in full-time education. Children over 18 will be able to access the Life, money and wellbeing confidential helpline and other online resources.
